

 **ALUMINUM**

From casting to finishing – we go beyond to improve your bottom line.

THE RIGHT FLUIDS ARE JUST THE START.

Because when it comes to improving your overall business – and getting the most from your operations and resources – you need the expertise and experience of a proven leader with over 40 years of service to the aluminum industry.

That's where Quaker comes in. Trusted around the world as chemists, engineers and technical experts, we've served some of the world's largest reversing mills, single and multi-stand tandem finishing mills, and combination mill systems.

We're a valuable partner in not only reducing costs but also improving your operations by providing process expertise and customized support services at the local level, for everything

from rolling to cleaning to downstream requirements of your customers (lubrication, welding, adhesives, cleaning, painting, etc).

By utilizing a complete package of value-added fluids supported by worldwide research, experience and expertise directly to your processes, you will see cost reduction and a maximum return in productivity – and that means profitability for your business.

From the highly trained team behind our unique management services, to our field staff of aluminum process engineers, there's always someone from Quaker available to support you when working with our products and improving your aluminum operations.

Whether it's casting, hot or cold rolling or finishing, Quaker has innovative, integrated process solutions and superior service to optimize your operations and increase profitability.

KEY BENEFITS OF CHOOSING QUAKER SOLUTIONS FOR YOUR ALUMINUM OPERATIONS

- » Application Support – We work with your teams for the best results
- » Improve Surface Quality and End-Quality Products – Reduce process downtime and rework and rejects
- » Reduce Applied and Conversion Costs – See the difference in your bottom line
- » Minimize Environmental Impact – Reduce waste and improve Health and Safety

INNOVATIVE OFFERINGS FOR:

- » Hot Rolling – Quality Lubricants like ALUSHIELD™ and QUAKEROL®
- » Cold Rolling – Unique QUAKER QUAKEROL® additives
- » Aluminum & Tinplate D&I Can Making – Lubricants and washer chemicals such as QUAKLEEN®
- » Corrosion Preventives – Proven solutions such as FERROCOTE® and QUAKER DRYCOTE®
- » Fire-Resistant Hydraulic Fluids – Specialty formulations such as QUINTOLUBRIC®

A LOCAL PARTNER YOU CAN DEPEND ON. ANYWHERE IN THE WORLD.

Our Associates are on the ground in every region of the globe. That means our entire infrastructure (from sales to service, R&D to manufacturing) is designed to support our customers at a local level, whether in one facility or spread across multiple plants worldwide.

Put the right partner to work for you during every step of success. Contact Quaker today to transform your business from the inside.
