

PIT & QUARRY

From corrosion protection to dust suppression – we do more to benefit your entire operations.

THE RIGHT FLUIDS ARE JUST THE BEGINNING.

When it comes to improving your overall business – and getting the most from your employees and resources – you need the expertise of a proven leader with over 500 years combined experience of industrial service.

That's where Quaker comes in. Trusted around the world as technical experts, we're a valuable partner in reducing costs and improving your operations. Quaker provides process expertise and customized support services at the local level, for everything from mine development, to crushers and conveyor systems, to loading the rail carts and beyond.

By using Quaker's dust suppressants and hydraulic fluids supported by worldwide research, you will see a maximum return in productivity for both processes and employees – and that means profitability and success for your business.

From the highly trained team behind our unique management services, to our field staff of process engineers, there's always someone from Quaker available to support you when using our products.

Whether it's on embankments, dirt roads or mine sites, Quaker has innovative, integrated process solutions and superior service to optimize your operations, increase profitability and realize further success.

KEY BENEFITS OF CHOOSING QUAKER SOLUTIONS FOR YOUR PIT AND QUARRY OPERATIONS

- » Application Support – We work with your teams for the best results
- » Environmental and community compliance – Complete offer of biodegradable fire-resistant hydraulic fluids, greases and dust suppressants: reduce waste and operational footprint and mitigate the production of dust
- » Increase Safety – Protect lives and equipment with reduced risk of fire and health hazards
- » Reduce Usage, Maintenance and Applied Costs – Positively impact your bottom line

INNOVATIVE OFFERINGS FOR:

- » Dust Suppression – Innovative DUSTGRIP™ product line serves various pit and quarry applications, from conveyors to stockpiles and screening operations, among many
- » Fire-Resistant Hydraulic Fluids – Globally recognized QUINTOLUBRIC® formulations deliver high-performance, environmentally compatible solutions
- » Fire-Resistant Grease – Designed for applications where fire hazards exist, QUINTOPLEX™ and QUINTOLITH™ lubricate and reduce problems in extreme and environmentally sensitive applications

A LOCAL PARTNER YOU CAN DEPEND ON. ANYWHERE IN THE WORLD.

Our Associates are on the ground in every region of the globe. That means our entire infrastructure (from sales to service, R&D to manufacturing) is designed to support our customers at a local level, whether in one facility or spread across multiple plants worldwide.

Put the right partner to work for you during every step of success. Contact Quaker today to transform your business from the inside.
